

ITEM 2.2.7 | SECURITY

The Portal shall provide initial screening and protection against unauthorized network intrusions, viruses, and attacks for all filings. The Portal shall be isolated from other court networks or applications. Software and security devices such as antivirus software, firewalls, access control lists, filters, and monitoring software must be used by the Portal to provide this initial protection to court networks.

Computers that receive and accept filings from the Portal must be protected against unauthorized network intrusion, viruses, and attacks. These computers interface with the local CMS to accept e-filings. Software and security devices such as antivirus software, firewalls, access control lists, filters, and monitoring software must be used to protect the local court systems.
