

ITEM 5.2.1 | VENDOR PRODUCT CERTIFICATION

A product offered by a single commercial vendor must be certified by the FCTC under this section before the vendor may sell or otherwise deploy a new installation, or renew a contract for an existing installation, as meeting the definition of CAPS in Section 5.1.2. When a vendor obtains certification for a product, the State Courts Administrator is authorized to enter into such agreements as she deems advisable to facilitate transactions between such vendor and any trial court unit that chooses to purchase the certified product.
